PRELIMINARY AMENDMENT

Sir:

In response to the Notice to File Missing Parts of Nonprovisional Application, the statutory period for response being extended until June 5, 2002, by the enclosed Petition for Extension of Time, please amend the application as follows:

IN THE DRAWINGS

In Fig. 7d, for the section entitled "U.S. Adult Mixer", replace "Practical = First aid kid" with -- Practical = First aid kit --, and
for the section entitled "U.S. Teen Mixer", replace "Practical = First aid kid" with -- Practical = First aid kit --.

In Fig. 7e, for the section entitled “Japanese Adult Female Mixer”, replace “Full of Curiosity – Computer on Shelf” with -- Full of Curiosity = Computer on Shelf --.

for the section entitled “Japanese Adult Male Mixer”, replace “Full of Curiosity – Computer on Shelf” with -- Full of Curiosity = Computer on Shelf --.

In Figure 14, renumber the figure as -- Figure 14A --.

In Figure 15a, for the figure, renumber the figure as -- Figure 15 --.

for reference block 1507, delete the second “Product - N”.

In Figure 15b, renumber the figure as -- Figure 14B --.

In Figure 16a, renumber the figure as -- Figure 16 --.

In Figure 16b, for the figure, renumber the figure as-- Figure 17 --

for each successive block, add consecutive odd block numbering.

In Figure 17a, add arrowheads indicated by the depicted blocks.

In Figure 17b, add arrowheads indicated by the depicted blocks and lines.

In Figure 18, for reference block 1803, replace “Automatic Categorization analyzes text associated wiith a product (continue with remainder of text)” with -- Automatic Categorization analyzes text associated with a product (continue with remainder of text) --.

In Figure 20, for the figure, delete the handwritten note, “guess*user value = map value”.

for the block containing "End For each Personality Category",
reference the block with the numeral -- 2027 --.

In Figure 22, for the figure, replace block numbers "2001" through "2007" with --2201--
through --2207--

delete the handwritten example on the right side of the drawing.

for reference block 2207, replace "writtent" with -- written --.

In Figure 23, for the figure, add consecutive odd block numbering.

for reference block 2315, replace "The modifier rule is typically simple
multiplication, but the vlaue modifier (continue with remainder of
text)" with -- The modifier rule is typically simple multiplication, but
the value modifier (continue with remainder of text) -- .

In Figure 24, add consecutive odd block numbering.

In Figure 24, add a line connecting reference block 2411 to reference block 2413.

In Figure 25, add consecutive odd block numbering.

delete the handwritten note on the right-hand side of reference
block 2501.

In Figure 26, add consecutive odd block numbering.

In Figure 27, add consecutive odd block numbering.

In Figure 28, add consecutive odd block numbering.

2006126-061102

In Figure 28, add arrowheads indicated by the existing elements and lines.

In Figure 29, add consecutive odd block numbering.

In Figure 29, for reference block 2909, replace the text "Typically, nightly, but other schedules may be used" with -- Typically, nightly, but other schedules may be used --.

In Figure 30, add consecutive odd block numbering.

In Figure 31, add consecutive odd block numbering.

IN THE SPECIFICATION

Please replace the paragraph beginning at **page 3, line 1** (following the title "Brief Description of the Drawings"), with the following rewritten paragraph:

"FIG. 1 is a block diagram illustrating a matching-system, in accordance with an embodiment of the present invention;

FIG. 2 is a block diagram illustrating an exemplary computer system capable of implementing one or more of the elements of FIG. 1;

FIG. 3 is a block diagram illustrating a wish server according to an embodiment of the invention;

FIG. 4 is a block diagram illustrating, in greater detail, an application engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 5 is a block diagram illustrating, in greater detail, an interfacing engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 6 is a block diagram illustrating, in greater detail, a portrayer engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 7a is a block diagram illustrating, in greater detail, a portrait engine of the portrayer engine of FIG. 6, according to an embodiment of the invention;

2025-06-10 10:06:13

FIG. 7b illustrates an exemplary user interface for determining a cognitive aspect set, such as a consumer personality profile, according to an embodiment of the invention;

FIG. 7c illustrates a further exemplary user interface for determining cognitive aspects, according to an embodiment of the invention;

FIG. 7d illustrates an index of exemplary personality profiler elements useable in conjunction with personality profilers, according to an embodiment of the invention;

FIG. 7e is a continuation of the FIG. 7d index.

FIG. 7f illustrates an exemplary personality profiler corresponding to a young girl, according to an embodiment of the invention;

FIG. 7g illustrates an exemplary personality profiler corresponding to a young professional man, according to an embodiment of the invention;

FIG. 7h illustrates an exemplary personality profiler corresponding to an older boy, according to an embodiment of the invention;

FIG. 7i illustrates an exemplary personality profiler corresponding to an older girl, according to an embodiment of the invention;

FIG. 7j illustrates an exemplary personality profiler corresponding to a teen boy, according to an embodiment of the invention;

FIG. 7k illustrates an exemplary personality profiler corresponding to a young adult woman, according to an embodiment of the invention;

FIG. 7l illustrates an exemplary personality profiler corresponding to a young boy according to an embodiment of the invention;

FIG. 7m illustrates an exemplary personality profiler corresponding to an infant, according to an embodiment of the invention;

FIG. 8 is a block diagram illustrating, in greater detail, a usage monitor of the portrayer engine of FIG. 6, according to an embodiment of the invention;

FIG. 9 is a block diagram illustrating, in greater detail, a matching engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 10 is a block diagram illustrating, in greater detail, a data and communications management engine ("management engine") of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 11 is a block diagram illustrating, in greater detail, a viability engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 12 is a block diagram illustrating, in greater detail, a transaction engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 13a is a block diagram illustrating, in greater detail, a security engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 13b is a flow diagram illustrating the operation of matching system elements for providing one-way encryption, decryption and portrait sketches, according to an embodiment of the invention;

FIG. 14a is a block diagram illustrating a product-vendor engine according to an embodiment of the invention;

FIG. 14b illustrates an exemplary intentions map associating intentions with corresponding weighted cognitive aspect sets, according to an embodiment of the invention;

FIG. 15 illustrates information structures that are facilitated by matching system elements according to an embodiment of the invention;

FIG. 16 is a flowchart illustrating a method for matching consumers and products and/or vendors according to an embodiment of the invention;

FIG. 17a is a flowchart illustrating a further method for matching consumers and products and/or vendors according to an embodiment of the invention;

FIG. 17a is a flowchart illustrating a further method for matching consumers and products and/or vendors according to an embodiment of the invention;

FIG. 17b is a continuation of the FIG. 17a flowchart;

FIG. 18 is a flowchart illustrating a method for creating a product portrait according to an embodiment of the invention;

FIG. 19 is a flowchart illustrating a method for creating a consumer portrait according to an embodiment of the invention;

FIG. 20 is flowchart illustrating a method for creating a consumer portrait mapping according to an embodiment of the invention;

FIG. 21 is a flowchart illustrating a further method for creating consumer portraits according to an embodiment of the invention;

FIG. 22 is a flowchart illustrating a method for defining explicit attributes and preferences according to an embodiment of the invention;

FIG. 23 is a flowchart illustrating a consumer interest map creation and modification method according to an embodiment of the invention;

FIG. 24 is a flowchart illustrating a context determination method according to an embodiment of the invention;

FIG. 25 is a flowchart illustrating an intentions determination method according to an embodiment of the invention;

FIG. 26 is a flowchart illustrating an implied intent determination method according to an embodiment of the invention;

FIG. 27 is a flowchart illustrating a composite interests creation method according to an embodiment of the invention;

FIG. 28 is a flowchart illustrating a matching method according to an embodiment of the invention;

FIG. 29 is a flowchart illustrating a method for applying consumer feedback according to an embodiment of the invention;

FIG. 30 is a flowchart illustrating a shadow creation method according to an embodiment of the invention; and

FIG. 31 is a flowchart illustrating a sketch creation method according to an embodiment of the invention.”

Please replace the paragraph beginning at **page 34, line 13** with the following rewritten paragraph:

“For example, default aspects or weighting values can be formed, for new consumer contacts or others for whom little is known by the matching system, as an average of existing portraits having common “bases” or other aspects. Cognitive aspects can further be modified for default or other portraits based on corrections to suggestions, explicit entry or other information as might be inferred or otherwise determined by the matching-system.)”

Please add the following new paragraph at **page 43, line 13** (before the paragraph beginning with “Turning again to FIG. 7a, a portrait analyzer embodiment”):

“FIGS. 7d - 7m also indicate further personality profiler examples found to provide (sighted) matching-system users with a non-intimidating, easily recognizable and usable mechanism for portraying themselves or other persons or things. The examples also indicate differences that facilitate profiling of an infant (FIG. 7m), young children (FIGS. 7f and 7l), older children (FIGS. 7h and 7i) and young adults (7g and 7k), for a generalized American cultural/spiritual group cross section, while charts 1a-c and FIGS. 7b-c further provide cultural examples/differentiations as well.”

2016-06-10 09:13:00

REMARKS

The specification and figures are being amended in response to the above-mentioned Notice to File Missing Parts of Nonprovisional Application, and to otherwise correct obvious scrivener errors and improve clarity. No claims are being added, cancelled or amended, and no new matter is being added.

The amendments to the specification include corrections to the brief description of the drawings, a paragraph that has been amended to improve readability and a brief description of originally filed figures 7d-7m according to legend information as originally filed.

The amendments to the drawings are made primarily in response to the above-mentioned Notice to File Missing Parts of Nonprovisional Application, and to otherwise improve clarity and readability. It can now be seen, for example, that the suggestion by the above Notice that Figures 14a and 14b were missing from the original filing was in error. Rather, the present amendments should clarify that the reference numerals for certain of the drawings and the Brief Description of the Drawings merely required obvious corrections that are entered herein.

Attached to this Amendment is a copy of the drawings for Figures 1-6, 7a-m, 8-12, 13a-b, 14a-b, 15-17, 17a, 17b and 18-31, with proposed changes to Figures 7d, 7e, 14, 15a, 15b, 16a, 16b, 18, 20, 22, 23, 24, 25, 26, 27, 28, 29, 30 and 31 shown in RED ink. The proposed changes include primarily figure renumbering, insertion of figure element numbering, spelling corrections, removal of text not a part of a formally acceptable drawing and the addition of arrowheads and lines to flowcharts as they would be presumed even in their absence. Applicants understand that, despite an attempt to accurately list all amendments, the enclosed replacement drawings, and particularly the redlined copies indicating amendments, will control if any discrepancies should nevertheless arise between the above listed amendments and entered replacement figures.

Also attached to this Amendment is a Letter To The Chief Draftsperson (REQUEST TO MAKE PROPOSED DRAWING CHANGES) requesting the above noted changes to be made in Figures 7d, 7e, 14, 15a, 15b, 16a, 16b, 18, 20, 22, 23, 24, 25, 26, 27, 28, 29, 30 and 31. Applicants respectfully request the Examiner's approval for such changes to the drawings for Figures 7d, 7e, 14, 15a, 15b, 16a, 16b, 18, 20, 22, 23, 24, 25, 26, 27, 28, 29, 30 and 31.

If the Examiner has any questions or needs any additional information, the Examiner is invited to telephone the undersigned attorney at (650) 843-8796.

Attached hereto is a marked-up version of the changes made to the specification and claims by the current amendment. The attached page is captioned "**Version with markings to show changes made.**"

If for any reason an insufficient fee has been paid, the Assistant Commissioner is hereby authorized to charge the insufficiency to Deposit Account No. 05-0150.

Version With Markings To Show Changes Made

In the specification

Please amend the paragraph beginning at **page 11, line 1** (following the title “Brief Description of the Drawings”) as follows:

-- FIG. 1 is a block diagram illustrating a matching-system, in accordance with an embodiment of the present invention;

FIG. 2 is a block diagram illustrating an exemplary computer system capable of implementing one or more of the elements of FIG. 1;

FIG. 3 is a block diagram illustrating a wish server according to an embodiment of the invention;

FIG. 4 is a block diagram illustrating, in greater detail, an application engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 5 is a block diagram illustrating, in greater detail, an interfacing engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 6 is a block diagram illustrating, in greater detail, a portrayer engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 7a is a block diagram illustrating, in greater detail, a portrait engine of the portrayer engine of FIG. 6, according to an embodiment of the invention;

FIG. 7b illustrates an exemplary user interface for determining a cognitive aspects aspect set, such as a consumer personality profile, according to an embodiment of the invention;

FIG. 7c illustrates a further exemplary user interface for determining cognitive aspects, according to an embodiment of the invention;

FIG. 7d illustrates an index of exemplary personality profiler elements useable in conjunction with personality profilers, according to an embodiment of the invention;

FIG. 7e is a continuation of the FIG. 7d index.

FIG. 7f illustrates an exemplary personality profiler corresponding to a young girl, according to an embodiment of the invention;

FIG. 7g illustrates an exemplary personality profiler corresponding to a young professional man, according to an embodiment of the invention;

20110927 10:06:12

FIG. 7h illustrates an exemplary personality profiler corresponding to an older boy, according to an embodiment of the invention;

FIG. 7i illustrates an exemplary personality profiler corresponding to an older girl, according to an embodiment of the invention;

FIG. 7j illustrates an exemplary personality profiler corresponding to a teen boy, according to an embodiment of the invention;

FIG. 7k illustrates an exemplary personality profiler corresponding to a young adult woman, according to an embodiment of the invention;

FIG. 7l illustrates an exemplary personality profiler corresponding to a young boy according to an embodiment of the invention;

FIG. 7m illustrates an exemplary personality profiler corresponding to an infant, according to an embodiment of the invention;

FIG. 8 is a block diagram illustrating, in greater detail, a usage monitor of the portrayer engine of FIG. 6, according to an embodiment of the invention;

FIG. 9 is a block diagram illustrating, in greater detail, a matching engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 10 is a block diagram illustrating, in greater detail, a data and communications management engine ("management engine") of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 11 is a block diagram illustrating, in greater detail, a viability engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 12 is a block diagram illustrating, in greater detail, a transaction engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 13a is a block diagram illustrating, in greater detail, a security engine of the wish engine of FIG. 3, according to an embodiment of the invention;

FIG. 13b is a flow diagram illustrating the operation of matching system elements for providing one-way encryption, decryption and portrait sketches, according to an embodiment of the invention;

FIG. 14a is a block diagram illustrating a product-vendor engine according to an embodiment of the invention;

FIG. 14b illustrates ~~data structures that are facilitated by matching system elements~~ an exemplary intentions map associating intentions with corresponding weighted cognitive aspect sets, according to an embodiment of the invention;

FIG. 15 ~~is a flowchart illustrating a method for matching consumers and products~~ illustrates information structures that are facilitated by matching system elements according to an embodiment of the invention;

FIG. 16 is a flowchart illustrating a method for matching consumers and products and/or vendors according to an embodiment of the invention;

FIG. 17a is a flowchart illustrating a further method for matching consumers and products and/or vendors according to an embodiment of the invention;

FIG. 17a is a flowchart illustrating a further method for matching consumers and products and/or vendors according to an embodiment of the invention;

FIG. 17b is a continuation of the FIG. 17a flowchart;

FIG. 18 is a flowchart illustrating a method for creating a product portrait according to an embodiment of the invention;

FIG. 19 is a flowchart illustrating a method for creating a consumer portrait according to an embodiment of the invention;

FIG. 20 is flowchart illustrating a method for creating a consumer portrait mapping according to an embodiment of the invention;

FIG. 21 is a flowchart illustrating a further method for creating consumer portraits according to an embodiment of the invention;

FIG. 22 is a flowchart illustrating a method for defining explicit attributes and preferences according to an embodiment of the invention;

FIG. 23 ~~is a flowchart illustrating a consumer portrait creation method according to an embodiment of the invention;~~

—— FIG. 20 ~~is a flowchart illustrating a further digital portrait definition method according to an embodiment of the invention;~~

—— FIG. 21 ~~is a flowchart illustrating a consumer interest map creation and modification method according to an embodiment of the invention;~~

FIG. 22 24 is a flowchart illustrating a context determination method according to an embodiment of the invention;

FIG. 23 25 is a flowchart illustrating an intentions determination method according to an embodiment of the invention;

FIG. 24 26 is a flowchart illustrating an implied intent determination method according to an embodiment of the invention;

FIG. 25 27 is a flowchart illustrating a composite interests creation method according to an embodiment of the invention;

FIG. 26 28 is a flowchart illustrating a matching method according to an embodiment of the invention;

FIG. 27 29 is a flowchart illustrating a method for applying consumer feedback according to an embodiment of the invention;

FIG. 28 30 is a flowchart illustrating a shadow creation method according to an embodiment of the invention; and

FIG. 29 31 is a flowchart illustrating a sketch creation method according to an embodiment of the invention; --

Please amend the paragraph beginning at **page 34, line 13** as follows:

-- (For example, Default default aspects or weighting values can , ~~for example,~~ be formed, for new consumer contacts or others for whom little is known by the matching system, as an average of existing portraits having common “bases” or other aspects. Cognitive aspects can further be modified for default or other portraits based on corrections to suggestions, explicit entry or other information as might be inferred or otherwise determined by the matching-system.) --

Please add the following new paragraph at **page 43, line 13** (before the paragraph beginning with “Turning again to FIG. 7a, a portrait analyzer embodiment”):

FIGS. 7d - 7m also indicate further personality profiler examples found to provide (sighted) matching-system users with a non-intimidating, easily recognizable and usable mechanism for portraying themselves or other persons or things. The examples also indicate differences that facilitate profiling of an infant (FIG. 7m), young children (FIGS. 7f and 7l), older children (FIGS. 7h and 7i) and young adults (7g and 7k), for a

generalized American cultural/spiritual group cross section, while charts 1a-c and FIGS. 7b-c further provide cultural examples/differentiations as well.

LETTER TO OFFICIAL DRAFTSPERSON
(Request To Make Proposed Drawing Changes)

Sir:

Subject to the approval of the Primary Examiner in the above-entitled patent application, please substitute the enclosed forty-six (46) sheets of drawings that contain amended Figures 7d, 7e, 14, 15a, 15b, 16a, 16b, 18, 20, 22, 23, 24, 25, 26, 27, 28, 29, 30 and 31, for the forty-six (46) sheets of informal drawings containing Figures 1-6, 7a-7m, 8-12, 13a-13b, 14a-14b, 15-17, 17a, 17b and 18-31 as originally filed.

Approval is requested to amend Figures 7d, 7e, 14, 15a, 15b, 16a, 16b, 18, 20, 22, 23, 24, 25, 26, 27, 28, 29, 30 and 31 as shown in RED ink on the attached copies and as indicated below:

10066126-061102

In Fig. 7d, for the section entitled "U.S. Adult Mixer", replace "Practical = First aid kid" with -- Practical = First aid kit --, and
for the section entitled "U.S. Teen Mixer", replace "Practical = First aid kid" with -- Practical = First aid kit --.

In Fig. 7e, for the section entitled "Japanese Adult Female Mixer", replace "Full of Curiosity - Computer on Shelf" with -- Full of Curiosity = Computer on Shelf --.

for the section entitled "Japanese Adult Male Mixer", replace "Full of Curiosity - Computer on Shelf" with -- Full of Curiosity = Computer on Shelf --.

In Figure 14, renumber the figure as -- Figure 14A --.

In Figure 15a, for the figure, renumber the figure as -- Figure 15 --.

for reference block 1507, delete the second "Product - N".

In Figure 15b, renumber the figure as -- Figure 14B --.

In Figure 16a, renumber the figure as -- Figure 16 --.

In Figure 16b, for the figure, renumber the figure as-- Figure 17 --

for each successive block, add consecutive odd block numbering.

10066126-061103
2007-09-20 09:29:00

In Figure 17a, add arrowheads indicated by the depicted blocks.

In Figure 17b, add arrowheads indicated by the depicted blocks and lines.

In Figure 18, for reference block 1803, replace “Automatic Categorization analyzes text associated with a product (continue with remainder of text)” with -- Automatic Categorization analyzes text associated with a product (continue with remainder of text) --.

In Figure 20, for the figure, delete the handwritten note, “guess*user value = map value”.

for the block containing “End For each Personality Category”,
reference the block with the numeral -- 2027 --.

In Figure 22, for the figure, replace block numbers “2001” through “2007” with --2201--
through --2207--

delete the handwritten example on the right side of the drawing.

for reference block 2207, replace “writtent” with -- written --.

In Figure 23, for the figure, add consecutive odd block numbering.

for reference block 2315, replace “The modifier rule is typically simple multiplication, but the vlaue modifier (continue with remainder of text)” with – The modifier rule is typically simple multiplication, but the value modifier (continue with remainder of text) -- .

In Figure 24, add consecutive odd block numbering.

In Figure 24, add a line connecting reference block 2411 to reference block 2413.

In Figure 25, add consecutive odd block numbering.

delete the handwritten note on the right-hand side of reference
block 2501.

In Figure 26, add consecutive odd block numbering.

In Figure 27, add consecutive odd block numbering.

In Figure 28, add consecutive odd block numbering.

In Figure 28, add arrowheads indicated by the existing elements and lines.

In Figure 29, add consecutive odd block numbering.

In Figure 29, for reference block 2909, replace the text "Typically, nightly, but other
schedules may be used" with -- Typically, nightly, but other schedules
may be used --.

In Figure 30, add consecutive odd block numbering.

In Figure 31, add consecutive odd block numbering.

REMARKS

Applicants respectfully submit that the requested drawing amendments are
consistent with the corresponding material in the specification and does not add any new
matter to the application.

2017-09-27 09:00:00

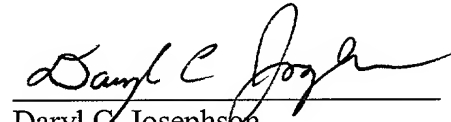

Should the Examiner have any questions concerning this request, the Examiner is invited to call the undersigned representative at the number shown below.

If for any reason an insufficient fee has been paid, the Commissioner is hereby authorized to charge the insufficiency to Deposit Account No. 05-0150.

Here is a guide to the ^{exemplary} ~~existing~~ art for the personality mixers ^{that follow in}

U.S. ADULT MIXER

FIGS. 7A-7m

(18 years and older)

Active = Ping pong paddle
Casual = Slippers
Classic = Pedestal
Conservative = Bow tie
Creative = Painting
Home & Garden = Hammer
Loves To Learn = Books
Nature Lover = Flower
Pamper Me! = Feather
Parent = Baby
Passionate = Smile
Practical = First aid kit
Rebel = Sunglasses
Spiritual = Halo
Stylish = Checkered pants
Techie = Computer
Trendy = Spiky hair
Upscale = Diamond
Way Too Busy = Flying money

U.S. TEEN MIXER

(14-17 years)

Active = Ping pong paddle
Casual = Slippers
Creative = Painting
Extravagant = Flying money
Loves To Learn = Books
Nature Lover = Flower
Pamper Me! = Feather
Practical = First aid kit
Rebel = Sunglasses
Social = Telephone
Techie = Computer
Trendy = Spiky hair

U.S. OLDER CHILDREN MIXER

(9-13 years)

Active = Skateboard
Loves To Learn = Books
Social = Telephone
Rebel = Sunglasses
Creative = Painting
Techie = Computer
Trendy = Spiky hair

U.S. YOUNG CHILDREN MIXER

(5-8 years)

Active = Skateboard
Loves To Learn = Books
Social = Telephone
Strong-willed = Football helmet
Imaginative = Finger painting

Portrait Consumer Mapping Created

gross of over
scale -- map value

This intent applies to the
cognitive aspect this much

FIG. 20

Explicit Attributes and Preferences

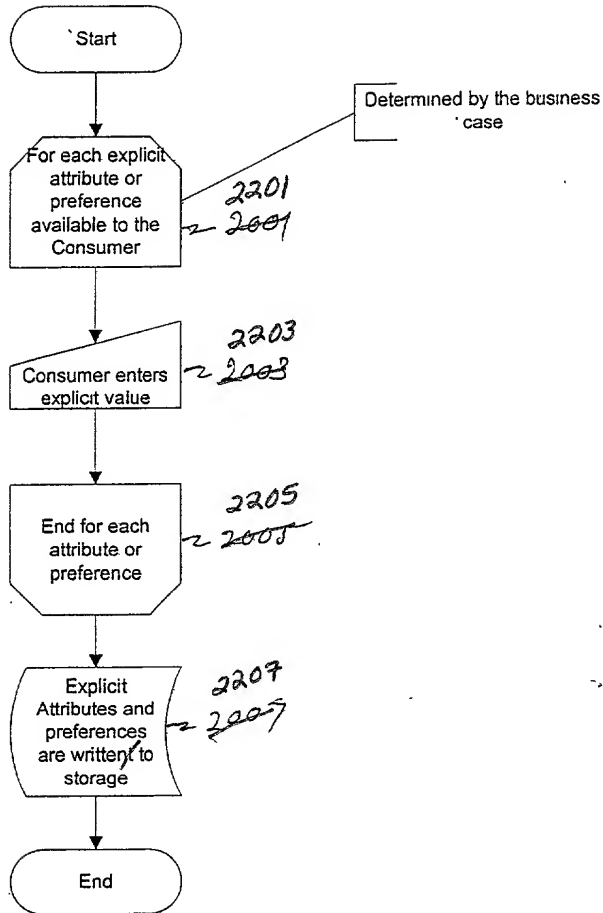

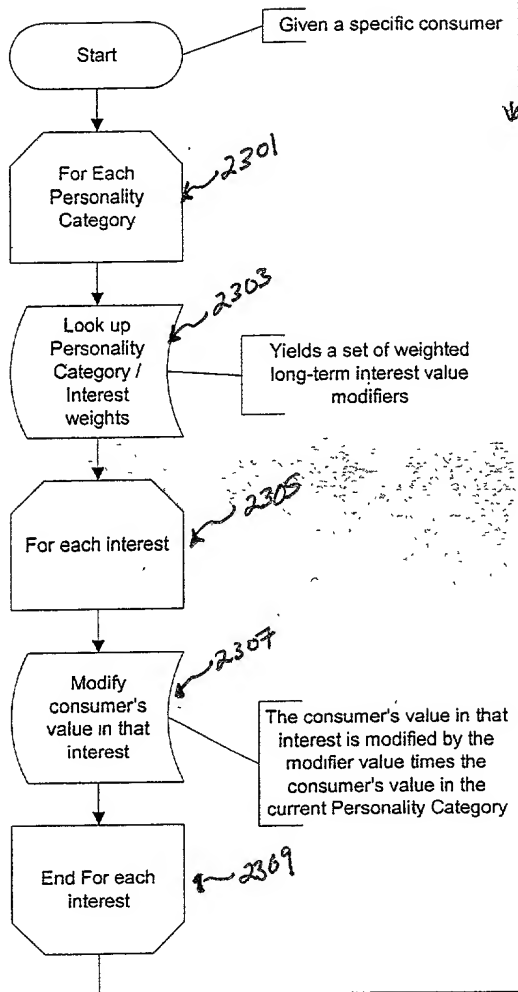

FIG. 22

Consumer Interest Map Modified or Created

The modifier rule is typically simple multiplication, but the modifier may include its own operation specifier, e.g. addition, multiplication, exponentiation, or other operations.

Yields a set of weighted Product Category value modifiers

The consumer's value in that Product Category is modified by the modifier value times the consumer's value in the current Personality Category

Yields a set of weighted intention value modifiers
